ABSTRACT

This computer software program helps to make classroom worksheets, take home assignments, and school mathematics tests easy to design and manufacture. The accompanying printed teaching guide provides technical information for setting up and using the program, along with sample worksheets and instructions on how to create them using the software. Volume 2 contains instructions on how to create tests on fractions, decimals, percentage, powers/square roots, place value, formulas, symbols, sequences, sets, bases, and graphs. (ASK)
